

Hybrid Governance, and Evolutionary Land Tenure Records Development (Monwabisi Park Informal Settlement)

Professor **Michael Barry**, University of Calgary

BIOGRAPHICAL NOTES

Dr. **Michael Barry** hails from Cape Town, South Africa. He joined the University of Calgary's Department of Geomatics Engineering in 2002 and holds the Chair in Land Tenure and Cadastral Systems. Dr. Barry has served on a number of South African government working groups in cadastral surveying, land tenure, land registration systems and GIS. He has consulted to the United Nations Food and Agriculture Organisation (FAO), UN-Habitat, the British Council, Southern African Development Community (SADC) and the World Bank. He has done research and consulting relating to his research in Botswana, Canada, Ghana, Lesotho, Malawi, Namibia, Nigeria, The Philippines, Somaliland, South Africa, Swaziland, Tanzania, Zambia and Zimbabwe. He is Canada's representative to Commission 7 of the International Federation of Surveyors (FIG), and a director of the FIG Foundation.
